

SMARTGOV FOR CITIZENS

SMART INSIGHTS

Smart Insights is a reporting tool senior officials and management can use to monitor requests, track the efficiency of the resolution process and identify trends for improved planning.

Smart Insights empowers your government to **transform citizen data into actionable insights**, driving service excellence and informed decision-making.

KEY FEATURES

Intuitive Reporting

Access customisable reports and dashboards that visualise key metrics and trends.

Actionable Data

Drill down into specific service requests to identify areas for improvement.

Trend Analysis

Track performance over time and identify opportunities for proactive problem-solving.

Data-Driven Decisions

Make informed decisions based on real-time insights and historical data.
